Tango Tew

Senior Technology Consultant @ EY
Edmond, Oklahoma, United States

Summary

Senior Full-Stack and DevOps/Platform Engineer with hands-on experience across both Microsoft Azure and AWS ecosystems. I hold a Master of Science in Computer Science & Artificial Intelligence from SMU, where I specialized in cutting-edge AI methodologies, including Large Language Model (LLM) applications. Over the years, I've spearheaded innovation and migration initiatives for cloud-based solutions, leveraging my expertise in full-stack development, DevOps best practices, and AI-powered frameworks to deliver transformative results.

Beyond my corporate roles, I'm passionate about giving back to the community—whether it's contributing to open-source projects, mentoring rising tech professionals, or empowering local entrepreneurs through accessible technology. By uniting the power of AI research, robust cloud platforms, and modern engineering, I strive to build solutions that not only drive immediate value but also shape the future of digital transformation for businesses and communities alike.

Experience

Ernst & Young Global Consulting Services
Senior solution Engineer
June 2021 - Present (4 years 11 months)
Oklahoma, United States

Inceed
Dotnet Developer
August 2020 - June 2021 (11 months)
Oklahoma, United States

Revature
Associate Software Engineer
May 2019 - May 2020 (1 year 1 month)

Arlington, Texas area

Udemy

Smart-brain App

December 2019 - December 2019 (1 month)

Lawton, Oklahoma Area

Built an App that leverages the power of API to detect a face, register users, and sign them in using the latest technologies, (react js, express js, PostgreSQL, CSS3 and etc)

MTP (Mentoring and Tutoring program)

Volunteer Web Developer

February 2018 - November 2019 (1 year 10 months)

Tennessee, United States

Designed the website architecture to support MTP operation here in United states and abroad.

Maintained and developed modules for Drupal web store.

Streamlined website development by migrating to Acquia's Drupal hosting service.

Decreased page load times by over 3000% using a content delivery network.

Used web services to create a user friendly interface to Parallels Automation suite.

Udacity

8 months

Deep Learning Nanodegree Graduate

November 2018 - May 2019 (7 months)

Nebraska, United States

Facebook Pytorch Challenge Participant

October 2018 - January 2019 (4 months)

Nebraska, United States

I have been given an opportunity to participate in the Facebook and Udacity Pytorch Challenge as one of the 10,000 competitors. As a result, I ended up to be selected as one of the few who've won the Deep Learning Scholarship from Facebook.

. I've used the Convolutional Neural Network to build Flower Species Recognizer

. Used Data Augmentation to improve data variation which improves the overall results.

. My model yielded 98% accuracy on the test data.

. Won the Deep Learning NanoDegree among 300 selected few out of 10,000 participant

Education

SMU Lyle School of Engineering

Master of Computer Science & AI Specialization, Computer Science · (April 2021 - December 2023)

Dire Dawa University

Bachelor's degree, Computer Science · (2012 - 2016)

Udemy Alumni

Certificate, Computer Software Technology/Technician · (2019 - 2020)

Udacity

Nanodegree, Deep learning, pytorch · (2018 - 2019)

High school diploma

N/A · (2013 - 2016)
